Profile

Aspiring AI Engineer with a strong foundation in Artificial Intelligence and Machine Learning, proficient in Python, Java, SQL, and web technologies. Seeking an opportunity to apply my problem-solving abilities, analytical thinking, and continuous learning mindset in a challenging environment while contributing to innovative and scalable technology solutions.

Education

B.Tech, Vasireddy Venkatadri Institute of Technology,CGPA-8.93

2022 – 2026
Numbur, India

Skills

Programming: Python, Java, SQL,ML

Libraries: Pandas, NumPy, Matplotlib,OpenCV, Scikit-learn

Backend & Database: Object-Oriented Programming,Firestore, MySQL

Tools: Jupyter Notebook,Google colab, GitBash, Streamlit, VS Code, GitHub

Cybersecurity: Penetration Testing, OWASP Standards, Metasploit, Burp Suite, Nmap, Wireshark, SQL Injection

Internship

Cybersecurity Intern 🔗 , Syntho Quest

05/2025 – 06/2025
Guntur

- Conducted simulated cyberattacks to identify and exploit system vulnerabilities
- Used Metasploit, Nmap, and Wireshark for penetration testing
- Monitored network security for intrusions and prepared detailed vulnerability reports with mitigation plans.

AI & ML Intern-InfosysSpringBoard 🔗

10/2024 – 12/2024

- Completed a machine learning internship at Infosys Springboard 5.0, focusing on credit card fraud detection models and improving fraud detection speed and preventing financial loss

Projects

Digital Awareness & Cyber Safety App 🔗

06/2025 – 08/2025

- Developed a Flutter app to promote digital awareness and cyber safety.
- Features include cyber safety tips, phishing awareness, password security, and interactive quizzes.

Smart Farming Assistance 🔗

03/2025 – 07/2025

- Developed a Smart Farming Assistance web application integrating crop recommendation, plant disease detection using deep learning (ResNet9), fertilizer suggestion, and weather forecasting via API.

Indian Sign Language Translator 🔗

01/2025 – 05/2025

- Developed a system using ML and Streamlit for sign language translation. Supports text-to-sign, voice-to-sign, and real-time gesture detection .Promotes accessibility and inclusion for hearing-impaired individuals

Certificates

NPTEL: 🔗 Python,Java,Machine Learning

InfosysSpringBoard: SQL, Python,Ai-foundation

Cisco: 🔗 Ethical Hacker

Coursera: 🔗 SQL

Extra Curricular Activities

ACM Member

2024 – 2025

- Coordinated and supported technical events, workshops, and learning sessions to strengthen coding culture and teamwork among participants.
